# Rethinking the Design and Delivery of Community Primary Care Services - Building a Team

## Some Evidence from Alberta

Thursday, February 2, 2023

Free - Virtual or In-Person

12:00 - 1:00pm

Dr. Terrence McDonald, a Health Services Researcher, Practicing Family Physician and Assistant Professor at Cummings School of Medicine will review evidence from Alberta.

### Target Audience:

Family physicians, specialist physicians, nurses, nurse practitioners, mental health professionals, pharmacists, physiotherapists, social workers, residents, researchers, health sciences students, and other health care professionals. All other healthcare professionals are encouraged to attend.

### Learning Objectives:

**At the end of this conference, participants will be able to:**

- Understand the problem of current and future workforce supply of Family Physicians.
- Understand the design and role of the patient medical home model of care for delivering primary care.
- Understand the impact of primary care clinic continuity on patient health outcomes.
- Understand the role of primary care networks (PCNs) and building a TEAM of allied health professionals.
