Student Evaluation of Clinical Experience

Clinical Facility: _____ Clinical Preceptor: _____

Placement: _____ Clinical Preceptor: _____

Dates: _____ Site Manager: _____

Area of Practice: _____ Student: _____

The purpose of this form is to: 1) Foster communication between the clinical preceptor (CI) and student; 2) Provide constructive feedback to the clinical preceptor; 3) Provide feedback to the facility/agency on the student's experience; 4) Provide feedback to the School of Rehabilitation Science regarding the clinical experience.

Instructions for completion:

- Students are strongly encouraged to complete this in the final stages of the placement and review the completed form with their clinical preceptors and managers as applicable.
- Comments are extremely valuable and strongly encouraged. Please append additional comments if required.
- Please check the appropriate rating box for each item according to the following scale: **SA = Strongly Agree; A = Agree; N = Neutral; D = Disagree; SD = Strongly Disagree**

Section 1: The Experience	**Final**				
	SA	A	N	D	SD
1. I was adequately oriented to the site and clinical area (e.g., emergency and safety procedures, equipment, supplies, workload measurement statistics, documentation standards).					
2. The expectations of the placement, roles, and responsibilities were discussed in the first week of the placement (e.g., learning/teaching style, preferred methods of feedback).					
3. The environment was welcoming, non-threatening, collegial, and respectful.					
4. Opportunities and resources were identified to augment my knowledge and learning (e.g. patient meetings, variety of conditions, in-services).					
5. The amount and type of supervision I received was appropriate to my level/experience/competence.					
6. There was an adequate opportunity to conduct assessments and analyze findings.					
7. I had opportunity to collaborate with others (e.g., healthcare team, administrative staff, insurance professionals) which facilitated my learning in this setting.					
8. The feedback I received was regular, timely, and objectively identified my strengths and areas for improvement.					
9. The site contact/manager was helpful and available in dealing with clinical placement issues.					

This has been adapted and modified from the National Association for Clinical Education in Physiotherapy's Student Evaluation of Clinical Placement Document

10. I was encouraged to provide feedback to the CI and team.					
11. The mid-point assessment of my performance was useful in identifying additional learning needs related to meeting the objectives for this clinical experience. (optional at mid-point; required at final point)*					
12. The formal assessments of my performance were aligned with the informal feedback received to date. (optional at mid-point; required at final point)*					
Section 2: The Clinical Preceptor The Clinical Preceptor...	**Final**				
		A	N	D	SD
1..... was regularly available for discussion and/or consultation.					
2. … facilitated discussions to review, negotiate, and revise my specific learning goals and objectives regularly.					
3. …facilitated the development of my skills (e.g., interviews, assessments, clinical skills and techniques, intervention plans, communication, collaboration).					
4. …helped me develop my clinical reasoning skills (e.g., use of clarifications, probes, reflective questions, etc.) and encouraged me to use evidence to support clinical practice.					
5. …modeled effective physiotherapy behaviours (e.g., clinical skills, clinical reasoning, professional and ethical behaviours, patient and/or family communication).					
6. The feedback I received was regular, timely, and objectively identified my strengths and areas for improvement.					

Overall, the placement provided the learning experience required to develop competency in this area of practice, appropriate to my clinical level.
